MAYER PRO

ZUVERLÄSSIGKEIT UND QUALITÄT

The main principle of the "MAYER-PRO" Company is production of a high-quality and reliable product at an affordable price, which makes it easy for our partners and end users to achieve high performance indicators.

"MAYER-PRO" Company cares about its reputation and guarantees the supply of parts of exceptionally high quality.

Spare parts from the manufacturer "MAYER" fully comply with the technical and quality parameters of the OEM parts, which are originally used in the production of agricultural machines.

These parts are being developed by experienced and qualified engineering department and being thoroughly tested at laboratories and under actual severe field conditions.

Parts from "MAYER-PRO" combine high quality and affordable price, which allows to optimize you the machines repair expenses and ensure maximum efficiency rate for your Company.

The presence of a representative office and a wide range of spare parts in a warehouse in the center of Europe allows us to provide our Customers with the prompt delivery of parts in the shortest possible time.

Our company provides favorable conditions for the purchase of spare parts from MAYER-PRO.

And for regular customers we have a special system of pricing and terms of cooperation.

As a leading expert in the engineering and manufacturing
of the components for the sowing and tillage machinery, MAYER develops value propositions that
are able to solve the problems that the producers of
agricultural products are facing today.

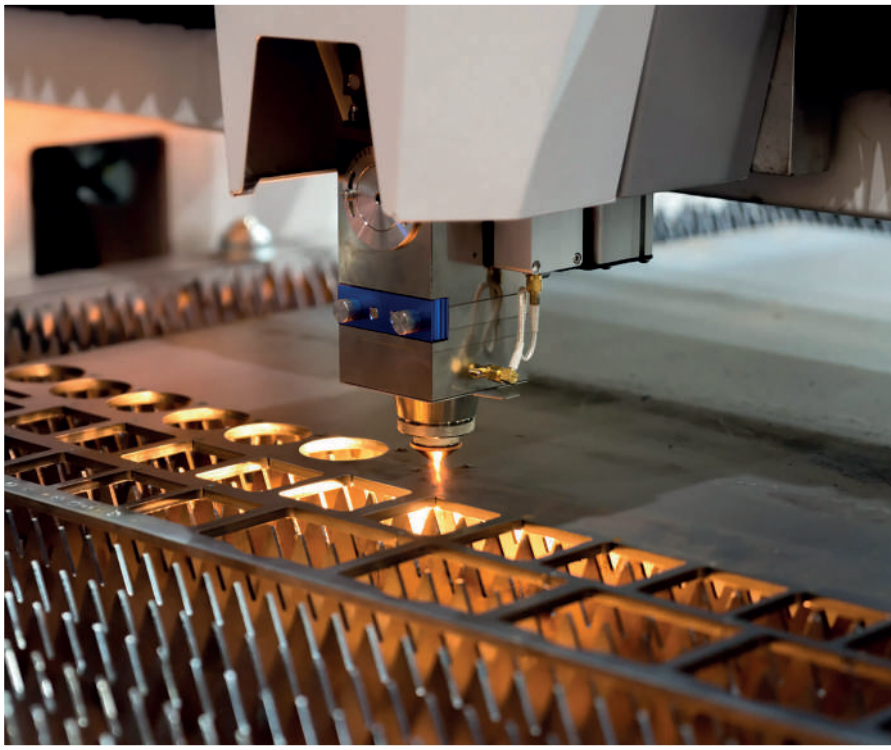

MAYER-PRO S.R.O. Company is a representative
of the European production group of companies
MAYER, it offers a line of high-quality spare parts for
agricultural machinery from leading European manufacturers.

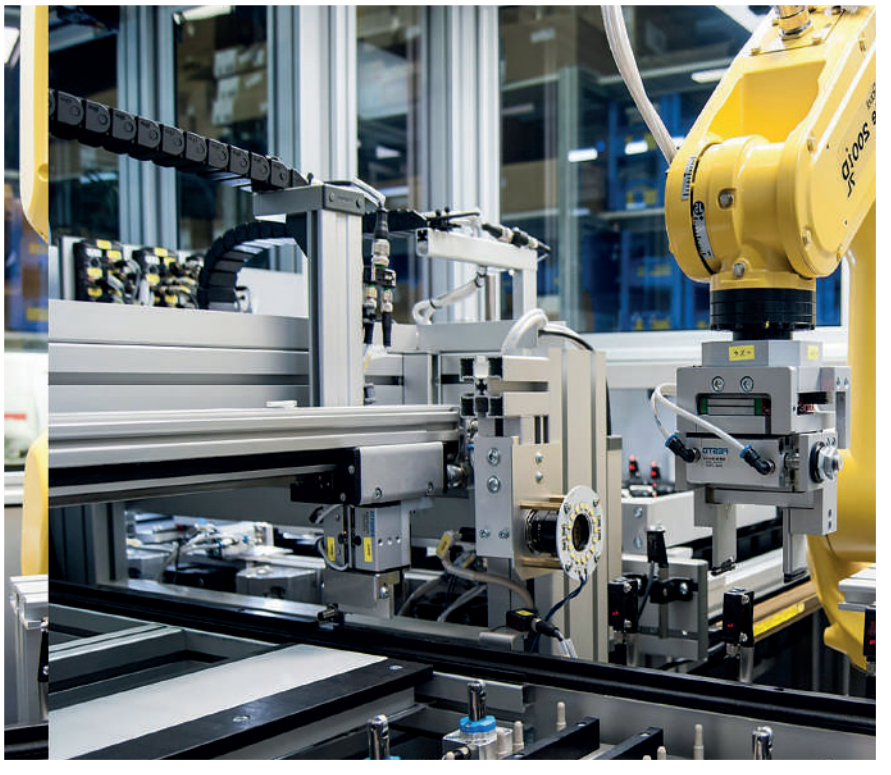

Whether you are looking to increase yields or improve
traditional tillage practices, you can be sure that at all stages of its activity - from development
and production to the sale of finished
